

### **Bullying and Cyber-Safety**

Joseph Legat, Coordinator Office of Student Adjudication

**Education Services Division** 

# Bullying – NRS 388.122

"Bullying" means a willful act which is written, verbal or physical, or a course of conduct on the part of one or more persons which is not otherwise authorized by law and which exposes a person <u>repeatedly</u> and over time to one or more negative actions which is highly offensive to a reasonable person and:

- 1. Is intended to cause or actually causes the person to suffer harm or serious emotional distress;
- 2. Exploits an imbalance in power between the person engaging in the act or conduct and the person who is the subject of the act or conduct;
- 3. Poses a threat of immediate harm or actually inflicts harm to another person or to the property of another person; Intimidation
- 4. Places a person in reasonable fear of harm or serious emotional distress; or
- 5. Creates an environment which is hostile to a pupil by interfering with the education of the pupil.

# **Cyber-bullying**

"Cyber-bullying" means <u>bullying through the use of electronic</u> <u>communication</u>. The term includes the use of electronic communication to transmit or distribute a sexual image of a minor. As used in the section "sexual image has the meaning ascribed to it in NRS 200.737.

"Electronic communication" means the communication of any written, verbal or pictorial information through the use of an electronic device, including, without limitation, a telephone, a cellular phone, a computer or similar means of communication.

NRS 388.123 & 388.124

### Nevada Law NRS 200.900 Senate Bill No. 414

Bullying by use of Electronic Communication Device

Approved by the Governor, June 1, 2013.

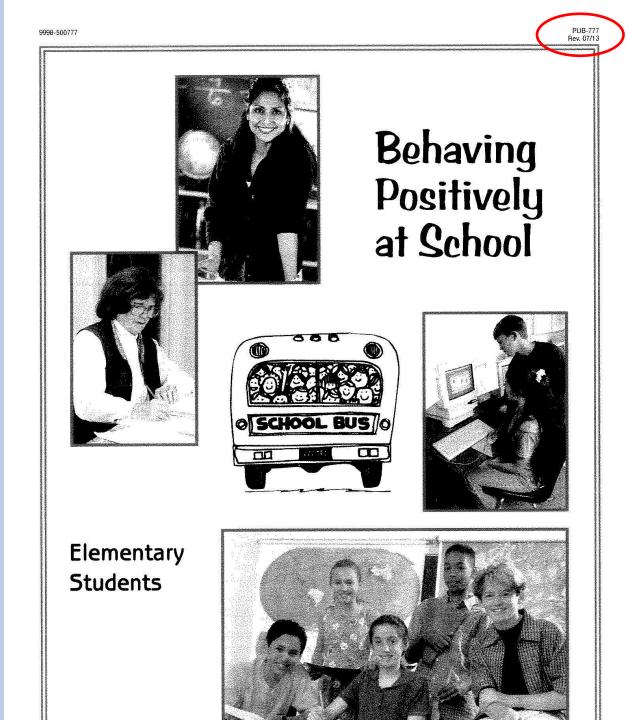

http://leg.state.nv.us/Session/77th2013/Bills/SB/SB414\_EN.pdf

Chapter 200 of NRS is hereby amended by adding thereto a new section to read as follows:

1. A minor shall not knowingly and willfully use an electronic communication device to transmit or distribute, or otherwise knowingly and willfully transmit or distribute, an image of bullying committed against a minor to another person with the intent to encourage, further or promote bullying and to cause harm to the minor.

**Effective October 1, 2013** 

PUB-777 & PUB-777.1 (Spanish) Revised 07/13

#### AGGRESSION

#### **BULLYING and CYBER-BULLYING**

- A. Bullying means a willful act which is written, verbal or physical, or a course of conduct on the part of one or more persons which is not authorized by law and which exposes a person repeatedly and over time to one or more negative actions which is highly offensive to a reasonable person and:
  - Is intended to cause or actually causes the person to suffer harm or serious emotional distress;
  - Poses a threat of immediate harm or actually inflicts harm to another person or to the property of another person;
  - Exploits an imbalance in power between the person engaging in the act or conduct and the person who is the subject of the act or conduct;
  - Places the person in reasonable fear of harm or serious emotional distress; or
  - Creates an environment which is hostile to a pupil by interfering with the education of the pupil.
- B. Cyber-bullying means bullying through the use of electronic communication. "Electronic communication" means the communication of any written, verbal or pictorial information through the use of an electronic device, including, without limitation, a telephone, a cellular phone, a computer or any similar means of communication.

Examples of bullying and cyber-bullying include, but are not limited to, behaviors that ridicule, degrade, or harass a person because of that person's actual or perceived race, color, national origin, age, sex (including non-conformity to gender stereotypes), sexual orientation, disability, and/or religious preferences such as:

- Unwelcome comments, ethnic, racial, or anti-gay slurs or jokes, threats;
- Cartoons, graffiti, posters, visuals, etc., with offensive connotations though nothing shall prohibit use of such materials for genuine academic, educational, or instructional purposes;

- Sabotage, criticism, unreasonable monitoring of student's work, etc., and or
- Hitting, intentionally blocking the path of, body, hand, or facial gestures.

CCSD Regulation 5141.2 Discipline: Harassment provides further detail regarding the district's policy against harassment.

#### **Range of Disciplinary Action:**

Minimum:	Conference, Parent Notification, Required Parent Conference, In-school Discipline
Maximum:	Suspension, Expulsion recommendation

Behaving Positively at School Page 4

#### QUICK TIPS

- Review District's Behavior Guidelines. "Behavior Guidelines for Secondary Students" and "Behaving Positively at School – Elementary School." These guidelines are made available to all District personnel and community members.
- Report Incidents. Do not ignore a situation. Call to set up an appointment to speak with your teacher, school counselor and/or administrator. Also, utilize the CCSD "Say No to Bullying" website that allows individuals to anonymously report unlawful activities at http://www.ccsd.net/students/bully/.
- Captured Photos or Videos. Photos or video of an assault on-campus by student(s), on a bus or during a school activity should immediately turn the footage over to a teacher, school administrator or police. That footage will become evidence against student(s) who commit the assault.
- Talk to Your Child. Let your child know that being a 'bystander' is just as harmful to the 'target' as being the 'bully.'
- Do Not Become the Bully. If your child is bullied, do not encourage them to react by bullying back. Your child could get injured, suspended and/or expelled. Support your child in becoming an 'upstander,' who proactively reports the incident to school officials who will take the appropriate action(s).

### Bullying and Cyber-bullying

A Safe and Respectful Learning Environment

#### What is Bullying?

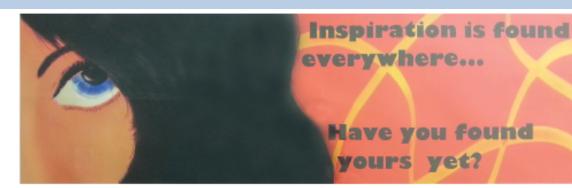

Bullying is a deliberate or intentional behavior using words or actions intended to cause fear, intimidation, or harm. Bullying may be repeated behavior and involves an imbalance of power. The behavior may be motivated by an actual or perceived distinguishing characteristic, such as, but not limited to: age, national origin, race, ethnicity, religion, gender, gender identity, sexual orientation, physical attributes, physical or mental ability or disability, and social, economic, or family status.

The Clark County School District responds promptly and takes a strong stance against bullying and cyber-bullying. CCSD is committed to providing a safe, secure, and respectful learning environment for all students and employees in all District facilities, school buildings, school buses, on school grounds, and at school-sponsored activities.

Bullying and cyber-bullying have a harmful social, physical, psychological, and academic impact on targets, bystanders, and even the bullies themselves. The school district strives to consistently and vigorously address bullying and cyber-bullying so that there is no disruption to the learning environment and learning process.

#### Bullying is not:

- a single instance of social rejection
- a single instance of meanness or unkindness
- unplanned actions of intimidation or hostility
- shared arguments, conflicts or fights.

#### Bullying behavior can be:

- Indirect (such as spreading cruel rumors, intimidation through gestures, social exclusion, or sending insulting messages or pictures) as defined by NRS 388.122.
- Physical such as assault, hitting, punching, kicking, theft, or threatening behavior.
- Power Imbalance when someone takes power over someone else.
  - Physical imbalance a stronger, more physically dominant individual usurps authority over a smaller, less strong individual.
  - b. Psychological imbalance intellect or social status determines dominance.
- Punitive aimed at hurting or punishing targeted individuals.
- Repetitive a repeated, even systematic act over time.
- Verbal such as threatening or intimidating language, teasing or name calling, or racist remark.
- Cyber-bullying bullying through the use of "electronic communication." "Electronic communication" means the communication of written, verbal, or pictorial information through electronic devices, including, but without limitation, telephones, cellular phones, computers, or any similar means of communication.

#### Working with CCSD to Stop Bullying and Cyber-bullying

It is the policy of the Clark County School District to encourage parenta/students who are targets of bullying and cyber-bullying and students who have first-hand knowledge to report such claims. Parenta/students should report any incident(s) to a teacher, counselor, or a school administrator. Parenta/students are encouraged to report knowledge of such bullying and cyber-bullying, via the CCSD "Say No to Bullying" website that allows individuals to anonymously report unlawful activities at http://www.ccsd.net/ students/bully/.

### **Bullying is not:**

- a single instance of social rejection
- a single instance of meanness or unkindness
- unplanned actions of intimidation or hostility
- shared arguments, conflicts or fights.

#### Past Is Prologue

Everything begins with a story. —Joseph Campbell

I was born in Toronto, one month early and during a blizzard that covered the city in snow and silence. The surprise and the low-visibility conditions that accompanied my arrival were portents, though they went unrecognized at the time. My mother, as a recent immigrant from India, was of two worlds, and she would pass that multiple identity on to me. My father was making his way to Canada, but had not yet arrived; his absence at my birth was a sign of the deeper absence yet to come. Looking back, I see all the ways in which my life was set the moment I was born into it. Whether in the stars or in stone, whether by the hand of God or some unnameable force, it was already written, and every action of mine would serve to

# **Disappearing Media**

### 5 OF THE BEST AND WORST SOCIAL NETWORKING TRENDS For 2014

THE SOCIAL MEDIA TRENDS WE WILL LIKELY BE OBSESSING OVER THIS YEAR FROM A BETTER WAY TO BLOG TO TAKING EVEN MORE SELFIES.

#### BY AMBER MAC

More than 70% of online adults are Facebook users, but the popular social network is facing some slivers of competition as new digital destinations entice users. In 2013 we saw the rise of visual social media, with services such as Instagram and Pinterest reeling in fans with photos-first agendas.

This year there is not just one emerging trend, but instead there are a number, changing the way people connect online--all while slowly eating tiny bits of Facebook's lunch.

#### 1. DISAPPEARING MEDIA

When their parents and grandparents--and the dreaded marketers--jump on board of one social media site (like Facebook), teens scurry off to carve out new online territory. Most recently, Snapchat is driving the disappearing social media trend. With more than 360 million photos shared--and deleted within seconds--this company is proving that a younger generation is in fact cozying up to the idea of private moments.

Assuming the company can avoid another security breach, they are poised for continued upward growth in in 2014.

**#1 - Show! Don't Tell**: Let's face it, Facebook will always have a place in our hearts, but our Social Media Guru says micro videos is where it's. "You can see that from Snapchat and Instagram jumping on board and going as far as Vine was going and now they're all trying to catch up," owner of Envida Group, Candie G says.

Instagram is now the most popular photo sharing site thanks to its new 15-second video option. And since Snapchat followed suit, the site has more than 350 million monthly users, compared to Twitter with just 23 million.

In 2013, Coleman used social network websites and the smartphone messaging software Kik Messenger to coerce minor females into sending him nude and sexually explicit photos and videos.

### The Sextortion of Amanda Todd

8+ Share 21 🐯 🌄 6K

A year after her death, most people remember Amanda Todd from her YouTube video, holding up hand-written pages describing how one mistake in front of a webcam led to her torment by bullies at school and online. But beyond that viral video, the fifth estate reveals a more complex and disturbing story about what happened to the B.C. teenager driven to suicide in October 2012 – not just bullying, but the deliberate sexual extortion of a 15-year-old girl by online predators. Host Mark Kelley goes deep into Amanda's world, with neverbefore-seen videos and web chats from two personal laptops that her family shared with the fifth estate. With in-depth interviews from her mother, father and friends, Kelley reveals the untold story of The Sextortion of Amanda Todd.

Not yet assigned a final ESRB rating. Appears only in advertising, marketing and promotional materials related to a game that is expected to carry an ESRB rating, and should be replaced by a game's rating once it has been assigned.

# Is the other player/s known?

# Is the other player/s known?

# For gamers, combating online abuse not easy

Dressed as characters from the video game Clash of Clans, from left, Liz Leo, Kristina Horner, Jenn Godwin and Eia Waltzer stand together Friday, Aug. 29, 2014, at the Penny Arcade Expo.

Weber points to research that shows online taunting, popular in "Call of Duty," "Halo," and other shoot-'em-up games, may come from bullies who enjoy the online anonymity while seeking to reduce their own anxiety and feelings of inadequacy. She said such abuse is no different whether it occurs on the playground or the virtual battlefield.

Online games have become widely used by children of all ages. While children have been using computer games ever since desktop computers became a common item found in homes and schools, the use of the Internet for gaming has increased in recent years. With all the websites that offer the opportunity to play with people from around the world, every child can find something that appeals to their interests. Every time your child is exposed to other children online, though, <u>the risk of Bullying</u> <u>in Online Games increases as well</u>.

According to <u>Beat Bullying</u>, as many as 21 percent of children between the ages of eight and 11 have been cyber bullied, with about 27 percent of those experiencing it while playing online games.

### Lawyer: Man Accused of Luring Teen Via Facebook Not a Killer

BANGOR, Maine - Feb 23, 2015, 4:00 PM ET

By PATRICK WHITTLE Associated Press

FILE - Nichole Cable is seen in an undated photo provided by the Penobscot County Sheriff's Department. The state medical examiner's office says the 15-year-old girl allegedly lured to her death by 20-year-old Kyle Dube using a phony Facebook profile died from asphyxiation. The trial of now 21-year-old Dube, of Orono, is expected to begin Monday, Feb. 23, 2015 in Bangor and last two weeks. (AP Photo/Penobscot County Sheriff's Department, File) Close

### Kyle Dube found guilty of murder and kidnapping

#### Maine | Friday, March 6, 2015 at 3:30 pm

BANGOR — A jury took just 45 minutes to find a man accused of using Facebook to lure 15-year-old Nichole Cable to her death nearly two years ago guilty of murder and kidnapping after nine days of testimony at the Penobscot Judicial Center.

Kyle Dube, 21, of Orono was accused of using Facebook to lure Cable out of her mother's home in Glenburn nearly two years ago by using the identity of Bryan Butterfield, a boy his girlfriend had dated, then killing Cable in an abduction gone wrong.

He did not react when the verdict was read but his mother, brother and other relatives wept as he was led from the courtroom.

Cable's family and friends also cried and hugged each other as the verdict sunk in.

Members of Cable's and Dube's families declined to speak with the medias about the verdict.

Superior Court Justice Ann Murray ordered that Dube continue to be held without bail while awaiting sentencing. A sentencing date has not been set.

### The Megan Pledge http://aftab.com/index.php?page=the-megan-pledge

### The Megan Pledge

Megan Meier was thirteen when she died. She had been cyberbullied and harassed by others, including the mother of one of her friends. She felt that she had no choice but to take her own life, rather than face the betrayal of her friends and their cruelty.

Although Megan is not the first teen to choose suicide over being the target of a cyberbully, I make this pledge hoping that she will be the last.

I make it for Megan and all others who have experienced the fear of being a victim of cyberbullying. I make it for myself. I make it for my friends. I make it to create a safer Internet for everyone.

I believe that everyone is entitled to feel safe, online and offline. I believe that no one should be harassed or targeted for their differences. I believe that technology should not be used as a weapon to hurt others. I believe that no matter what someone has done, they should never be terrorized online. I believe that there are better ways of handling disputes than cyberbullying others. I believe that suicide is never an option, and that all young people can make a positive difference in the lives of others.

#### By taking this pledge:

I agree to take a stand against cyberbullying, including sharing this pledge with others and asking them to take it too.

I agree not to use technology as a weapon to hurt others.

I agree to Think Before I Click.

I agree to think about the person on the other side.

I agree to support others being cyberbullied and report cyberbullying whenever I find it.

I agree not to join in cyberbullying tactics or be used by cyberbullies to hurt others.

I agree to "Stop, Block and Tell" when I am being targeted by a cyberbully and to "Take 5!" to help me calm down and walk away from the computer.

I agree to be part of the solution, not part of the problem.

#### Family Contract for Digital Citizenship

#### Kids' Pledge

- I will remember that not all people have access to or utilize technology in the same way. I
  will not treat others differently if they do not have the same options.
- I will tell my parents or other responsible adult right away if I come across any information that makes me feel uncomfortable. I understand that to have technology rights that I have to be responsible in my actions as well.
- I will tell my parents if I experience any pain or discomfort when using technology. I will remember that I need to balance technology use with other activities.
- 4. I will not respond to any messages that are mean or in any way make me feel uncomfortable. It is not my fault if I get a message that is not appropriate. If I do I will tell my parents or responsible adult right away so that they can contact the proper groups.
- I will talk with my parents so that we can set up rules for making purchases online. We will decide upon if and when online purchases can be made and secure sites for me to use.
- I will treat others the way that I wish to be treated when using technology. I will keep in mind that my technology use affects others.
- I will check with my parents before downloading or installing software or doing anything that could possibly hurt our computer or jeopardize my family's privacy. I will also keep programs such as anti-virus, spyware and adware up-to-date to protect our information.
- I will be a good online citizen and not do anything that hurts other people or is against the law.
- I will help my parents understand how to have fun and learn things online and teach them things about the Internet, computers and other technology.

I agree to the above

#### Child sign here

I will help my child follow this agreement and will allow reasonable use of digital technology as long as these rules and other family rules are followed.

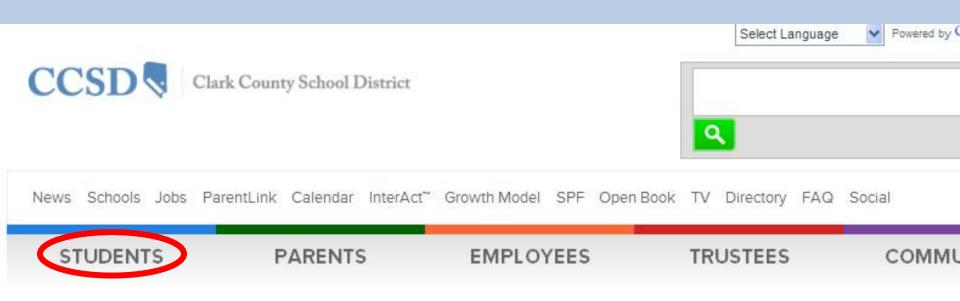

#### Parent(s) sign here

Contract adapted from the brochure Child Safety on the Information Highway by Lawrence J. Magid.
